Đorđe Jordanović

JUNIOR FRONT-END WEB DEVELOPER

ABOUT ME

Hello, my name is Đorđe Jordanović and I'm 21 years old. I fell in love with coding when I was 19 and it never stopped. It's my biggest passion in life and what I want to do for the rest of my life. I always work really hard and I'm eager to improve, learn and master new and modern web technologies. I'm creative, social and a good team player, always looking for the best way to solve a problem. Resourceful in any situation, always willing to look at things "outside the box". Other than coding, I spend most of my time with my girlfriend, watching tv shows, walking our dog, surfing StackOverflow and dev.to and playing basketball.
